

Sport and Social Inclusion: Future for Children

FUTURE++ proposes a comprehensive and appropriate training related to inclusion allowing coaches to become skillful in delivering quality services to their young athletes.

WELCOME TO THE THIRD FUTURE++ PROJECT NEWSLETTER!

In this issue of the Future++ Newsletter, we review:

- Discover the European Network of Coaches!
- The FTR++ e-Learning Platform
- Highlights from the project meeting in Athens
- What's next? The FTR++ Handbook and the final meeting and Conference in Barcelona!

At the end of the newsletter, you can find information on who the partners are behind FUTURE++ project, as well as contact information.

Happy reading!

Discover the EUROPEAN NETWORK OF COACHES

The Future ++ European Network of Coaches for Social Inclusion is available on our website!

To sign up at the platform, click on the top right button of the Future++ website (<https://future2plus.eu/>) called "Network Platform" and provide an e-mail to confirm your registration.

The European Network of Coaches is a forum that aims to connect coaches from different countries, make them discuss about different topics and find new strategies and solutions that can help them when it comes to promote inclusion of children through sport.

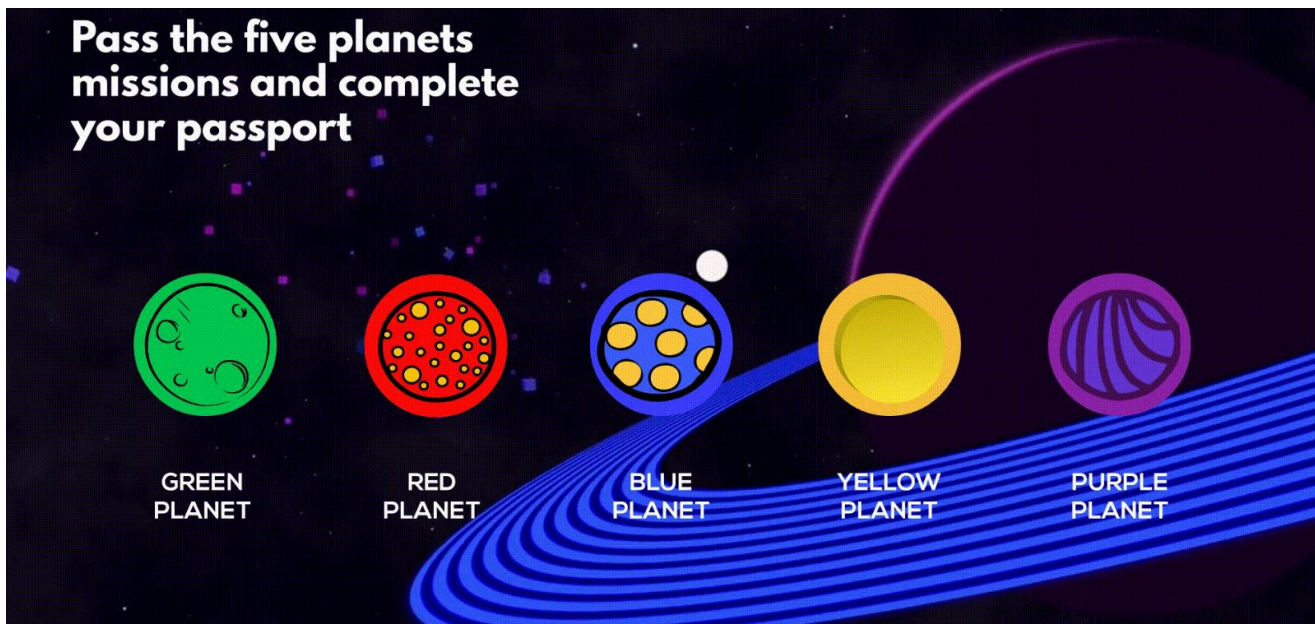

e-Learning Platform

The Learning Platform is available online and has been created for anyone involved in organized youth sports, coaches and organizational staff alike, we will cover a range of topics aiming to make your environment more inclusive.

The well-designed and structured educational resources produced and published provides a European-based coach education programme for youth sport. The platform has been developed as an interstellar adventure! The participant will have to overcome missions on 5 planets to obtain a passport that will allow them to return to Earth as an 'Inclusive Coach'.

Each planet explores different concepts closely related to the concept of social inclusion. Within each module there are different materials that will enable learning: videos, texts, links, tools and assessments. In addition, the platform is available in all languages of the Consortium.

The partners meet in Athens, Greece

The 7th Transnational Project Meeting, hosted by CRE.THI.DEV., held in Athens, Greece on September 13th, 2023.

The whole team shared the project's progress regarding the state of the indicators, the pilot tests of the e-learning platform and the suggested improvements, the results of the Dissemination Plan so far. Also, they discussed the next steps for the project and the brief and approach for **the Final Conference that will take place in Barcelona.**

What's next?

- The FTR++ Handbook translated in all consortium languages will be released in November! The Handbook seeks to support the social inclusion of children living in poor districts and to identify best practice in their design, implementation and measurement.
- The partners are going to meet in Barcelona, Spain on 28th - 29th November 2023 for the final partnership meeting and the European Conference!

Project Consortium
